Interi	national Integration and Democracy: No Love at First Sight Eric Stein	489
	The article correlates levels of integration in the World Health Organization, the World Trade Organization, NAFTA, and the European Union with the scope and intensity of the discourse about the "democracy-legitimacy deficit." It explores measures that might reduce the deficit through action in the national legal orders of the member states as well as widiin the four organizations and concludes by offering some possible "palliatives" and "grand and desperate cures" with implications for otifier international organizations and regimes.	
The F	Role of Public International Law in the WTO: How Far Can We Go?	
	WTO dispute settlement panels must decide matters in accordance with the applicable law in the context of general norms of international law and jurisdiction. The author argues that although the panels'jurisdiction is limited to WTO claims, the applicable law may include any rule of international law, which may, depending on the relevant conflict rule, even prevail over die WTO treaty.	535
